Product Features

Say goodbye to your traditional toilet and splurge on this amazing smart bidet that opens the lid when you're close by and soft closes when you leave. Your heavenly encounter starts as soon as you sit on the seat, clean water immediately coats the bowl to prevent sticking and a clean flush. Grab the remote control (battery not included), turn up the heat for a warm seat. Turn your ordinary bathroom experience into a luxurious spa-like indulgence. Activate the massager and go on to personalize your water temperature, spray pressure, and spray position - front or rear. Once your cleansing session is over, the smart toilet will automatically flush with its powerful tornado jet spray and deodorize the bowl. Note that a 120V outlet is required to power this smart bidet. Even if there's a power outage, you'll still be able to enjoy this as there is a backup battery that is capable of 100 flushes!
