# Splitty Reach Warm Light Silver with Wireless Charging Base

## Product Gallery

## Product Features

The Splitty family of task lights was inspired by the fluidity and formlessness of water droplets. The award-winning Splitty Reach offers incredible flexibility and reach due to its double arm and special joint mechanism. A USB port is located in the lower body for convenient charging options. The lamp's diffused LED light source allows it to perform as both a radiant ambient light and functional task light. The base wirelessly charges any compatible mobile phones. Simply place your phone or tablet on the base to charge.
