# WALL LL WPX2 LED 40K DK BRNZ

## Product Features

The WPX family of LED wall packs are your best choice for your everyday wall mounted lighting needs. No longer will your customers have to sacrifice performance and style to get the low initial cost that they demand. With three sizes and lumen packages of 1,550 to 9,200 lumens, the WPX family is a site-wide solution, replacing up to 400W metal halide wall packs. Since the WPX footprints are larger than that of typical metal halide glass wall packs, they fully cover unsightly stains, resulting in a neat application without the need for additional patch and repair.
