Product Features

Named after the star constellation and inspired by 21stcentury spacecraft design, the Perseus is a shining example of a formal, yet contemporary ceiling fan. The interplay between the earthly wood blades, floating ring, and celestial metallic body is a cosmic approach that's carried throughout the design. Constructed with stainless steel hardware to withstand the elements, this damprated fan is the perfect addition to any areas exposed to moisture and humidity like your large sunroom, patio, or bathroom. Dimmable, energy-efficient LED bulbs produce a soft light while the reversible, four-speed Direct Drive motor delivers unparalleled power, silent performance, and reliability over decades of daily use. The Perseus fan includes a convenient wall control that allows you to change fan speeds and adjust the lighting with ease. View Perseus Outdoor with LED Light 64 inch
