Jacobi Table Lamp

Product Features

What happens when a designer takes what was essentially a time-honored profile that dates back to the days of the Industrialists and gives it a marvelously modern profile? Our Jacobi Table Lamp. With a minimal amount of metal in an antique brass finish, the design impact is vast. The thin stem rising from a black marble base is cool enough given its width is echoed by the finial, but the way the off-white shantung shade is clasped by geometric accents and the height of the shade give this design its va-va-voom.
