Azores White Table Lamp

Product Features

The Azores White Table Lamp has a body covered in woven water hyacinth that has a light white wash over the natural material. This is one of our sustainably inspired offerings because the plant grows naturally in Vietnam in the streams, and people harvest it to make baskets. Because it grows wild and voraciously, removing the plants keeps the streams from clogging. Design details of note are how the water hyacinth is woven in different directions and the matching finial. We also offer this lamp in natural.
