Besa Celtic Wall Sconce

Product Features

The Celtic Mini Sconce is a contemporary bath design, employing a softly radiused and fused 3-piece glass diffuser. The glass includes a blown bubble glass upper section and a blown bubble glass lower section, which are fused onto a clear flat glass body with an exposed rounded edge. The clear glass body connects the glass to the upscale plated back plate, resulting in a floating glass appearance. And the pleasing play of light through the lower bubble accents make for a striking affect. The mini sconce fixture is equipped with a sleek arcing die cast lamp holder and matching radiused rectangular canopy. These stylish and functional luminaries are offered in a beautiful Bronze finish.
