# Besa Divi 1WU Swing Arm

## Product Features

Divi has a classical bell shape that complements aesthetic, while also built for optimal illumination. Our Copper Foil glass is sparkling and metallic. Distressed metal foil is applied to the inner surface of a glossy clear blown glass. This décor is full of textured and depth, however the outer surface of the glass is smooth. When lit the glass comes to life, as the distressed foil allows glimpses of light to pass through. This blown glass is handcrafted by a skilled artisan, utilizing century-old techniques passed down from generation to generation. Each piece of this décor has its own artistic nature that can be individually appreciated. The swingarm fixture includes a 12V electronic transformer and integrated full-range rotary dimmer. The adjustable arm assembly allows for 155 degree rotation and pivots at the clamshell-shaped center connection. These stylish and functional luminaries are offered in a beautiful Satin Nickel finish.
