Besa Duke Vanity

Product Features

The Duke Copper Vanity is a transitional bath design composed of a copper foil backed glass cylinder, with a compelling textured metallic effect that plays off the gleam of the clear glass component. Mounted off the broad canopy with timeless gooseneck socketholders, the pleasing glow from each shade's copper foil make for a striking affect along with the prominent display of the lamp filament behind the glass. These stylish and functional luminaries are offered in a beautiful Black finish.
