Besa Elana 26 Vanity

Product Features

Our Elana bath collection has a clean contemporary look, with a radiused satin white glass diffuser. Our Satin White glass is clear pressed glass that has been etched to diffuse the light, resulting in a semi-translucent appearance. Unlit, it appears as simply an un-textured surface like satin, but when lit the glass has a calming glow. The smooth satin finish on the clear outer layer is a result of an extensive etching process. This handcrafted glass uses a process where every glass is consistently produced using a press mold, keeping variations to a minimum. These stylish and functional luminaries are offered in a beautiful Chrome finish.
