# Besa Focus Cord Pendant

## Product Features

The Focus has a glossy Opal body with a fused lens at the bottom, with a choice of four lens styles. Our Clear Lens is a transparent molded borosilicate glass, with a parabolic shape designed to carefully refract the light rays in the light source. The result is an edgy display that exudes an energetic mood. When lit this gives off a light that is functional and vibrant. This handcrafted glass uses a process where every glass is consistently produced using a mold, keeping variations to a minimum. The 12V cord pendant fixture is equipped with a 10' braided coaxial cord with Teflon jacket and a low profile flat monopoint canopy. These stylish and functional luminaries are offered in a beautiful brushed Bronze finish.
