Besa Juni 16 Outdoor Sconce

Product Features

The Juni 16 sconce is composed of a black aluminum bracket and transparent Blue glass cylinder, with an interesting bubble pattern blown randomly throughout the glass. The pleasing play of light through the bubble accents make for a striking affect. The standard incandescent option offers a prominent display of the lamp filament behind the glass, while the LED option results in a splash of concealed LED downlight. These stylish and functional luminaries are offered in a beautiful Black finish.
