

Besa Pahu 8 Stem Pendant

Product Features

The Pahu is a distinctive double-glass pendant, with an inner opal cylinder centered within a transparent outer glass. Our Trans-Amethyst colored blown glass complements the soft white Opal cased glass, which can suit any classic or modern decor. Opal has a very tranquil glow that is pleasing in appearance, as the Trans-Amethyst glass sparkles with the accents from that glow. The smooth satin finish on the opal's outer layer is a result of an extensive etching process. This blown glass combination is handcrafted by a skilled artisan, utilizing century-old techniques passed down from generation to generation. The stem pendant fixture is equipped with an adjustable telescoping section, 4 connectable stem sections (3", 6", 12", and 18") and low Profile flat monopoint canopy. These stylish and functional luminaries are offered in a beautiful brushed Bronze finish.
